Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa, suppressed or absent monthly period; chills from or accompanying an abnormal condition of the digestive organs and Anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation of its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

MR. FINLEY'S SPEECH.

President W. W. Finley, of the Southern Railway Company, delivered an address before the National Editorial Association at the Jamestown Exposition Tuesday afternoon, in which he asked the editors to look at the transportation problem from the viewpoint of the railway manager and to consider the difficulties confronting him in his efforts to improve railway service.

Mr. Finley reviewed the railway problems of the day, declaring that the most difficult problem confronting the railway manager, and especially the manager of a railway in the southern States, is that of providing facilities for the transportation of the constantly increasing volume of traffic that is offered to his road. Arrangements, he said, had been made more than a year ago for the issue of 4 per cent bonds to the amount of $200,000,000, part for retiring, at reduced rates of interest, outstanding obligations as they mature, and the balance for improvements and betterments.

Mr. Finley did not oppose legislation for the proper regulation of railways, or tending to prevent any wrong practices or hurtful polities, but contended that the object of legislation affecting railways should be restraint from wrong rather than the management of a business in which private individuals had assumed all the risk.

Mr. Finley drew a distinct line between the right and duty of the government to protect the public from oppression and wrong and the enactment of legislation that would be confiscatory of the property of the carrier, saying that "a carrier has performed its full public duty in respect to its charges when it has established a reasonable scale of rates and has refrained from discrimination in rates or facilities as between individuals, localities, and commodities. After it has discharged and complied with these and its other public obligations, the balance of its property is private property and should be respected as such by governmental policy and public sentiment."

President Finley, after discussing the rate question and adverse railway legislation, claiming that the public opinion was being poisoned against the railways, declared that the newspapers of the country were not careful in handling news concerning railway disasters, often printing inaccurate statements.

After the address was concluded, a number of the editors replied to President Finley's criticisms, saying that it had been the policy of the railways to withhold details and often important facts connected with their operations and especially with their wrecks.

This policy made it difficult, they contended, for the newspapers to be accurate in their news stories.

To these replies Mr. Finley responded that the railways had only withheld such news as seemed to them unimportant and of no concern to the public which the newspapers served.

A Real Wonderland.

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mound City, in the home of Mrs E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, by E. S. Leadbeater & Sons, druggists. 50c and $1.00. Trial bottle free.

DISASTERS IN HAMPTON ROADS.

Torpedo boats have been continually searching Hampton Roads for some trace of the 11 bodies of the victims of the navy launch disaster or objects of some kind from the lost launch, but up to this time the only things found are one cap, supposed to have belonged to one of the lost men, and a fireman's ditty box, supposed to be from the Minnesota's launch. The uniform capes of Midshipmen Stevenson and Ulrich have been picked up.

It is believed that when the launch is found the bodies of all the eleven will be found in it, as it would be quite impossible for any one of the bodies to get out of the canvas-covered craft, even through the small opening in the front, though smaller objects might float out through this opening. It was raining and the choppy seas were sending sprays to such an extent that it was necessary for those in the launch to have the canvas covering buttoned tightly to the sides of the little vessel.

There was an opening on each side of the canvas for the passengers to enter and leave the launch, but both of these, it is believed, had been buttoned down immediately upon the launch leaving Discovery Landing, at the Jamestown Exposition pier, shortly after midnight, and the little launch was making rapidly through the heavy seas for the battleship Minnesota when she was suddenly struck and sent to the bottom in several fathoms of water.

The only opening in the canvas canopy which covered the launch is supposed to have been in the front, just enough for the coxswain, who was steering the craft, to see ahead.

It is believed by some that the launch was overturned by the heavy sea and sent to the bottom.

A search is being made for two men from the torpedo-boat destroyer Worden, who, leaving that vessel at 8 a. m. Tuesday in a small launch, proceeded to Newport News. There they had some trouble with their engine, and, repairing it as best they could, started on the return for the Worden, lying off Pine Beach, near the Exposition grounds. This is the last that was seen of the men, and it is feared that they met with further trouble, and possibly were lost. If these men prove to have been lost, it will make 15 lives that have been lost since the fleet first assembled in Hampton Roads, in April.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. AND VIRGINIA ADVERTISER

THURSDAY EVENING, JUNE 13, 1907.

THE adulterations of whisky are deemed of sufficient concern to demand a Cabinet council, with the view of devising means of vigorously enforcing the new law against this species of fraud. In the opinion of the Secretary of Agriculture some stern examples are necessary to convince the rectifiers that they cannot evade with impunity the provisions of the law as to describing what they sell for whisky. The question is not whether the rectified spirits taste better than the pure distillations of rye and corn, but that the purchaser shall be informed as to just what he buys. If blended whiskies are better than the pure product of the still, as the rectifiers strangely contend, there can be no harm in labeling their product for just what it is; or if consumers prefer a mixture of alcohol and essences to give the product a rich color, a pleasant flavor and a "bead," that is a matter of taste. But it is the business of the government to enforce the law so that no one shall be deceived as to what he buys.

IN THE May number of the System Magazine Edward P. Ripley, president of the Atchison, Topeka and Santa Fe Railway Company, treats of the mutuality of interest between the people and the railroads. He takes the ground that the railroad should be conducted as a cold-blooded business proposition, and that only as it succeeds as such can it satisfy its own stockholders or efficiently serve the section through which it runs. He points out that it is to the interest of the railroad to develop in every possible way the resources and industries along its line, thus inducing traveling and settlement, and increasing the prosperity of the people whom it serves. On the other hand, he contends that the welfare of the people depending on a particular railroad for service requires that the road be so conducted as to enable it to maintain its equipment and service in first-class shape and pay a fair dividend upon its stock.

THE United States Supreme Court recently rendered a decision in the case of a Georgia lumber firm against the Southern Railway, unimportant in itself, but which indirectly sustains the power of the Interstate Commerce Commission under the federal rate law to fix railroad rates. The commission had decided that an increase of 2 cents a hundred on lumber from Georgia to the Ohio river was unreasonable and unjust, whereupon the railroad carried the matter up to the highest court, which now sustains the action of the commission.

THE WEATHER which has prevailed over a large portion of the United States during the past few weeks is regarded as phenomenal, and brings to mind the remarkable summer of the year 1816, when frost occurred in every summer month. People in this city and in many other parts of the country are still using fires for heating purposes, and rain and cold easterly winds render conditions uncomfortable and dismal. Straw hats are still unseasonable, and summer resorts fail to attract visitors.

SENATOR MORGAN, of Alabama, died a poor man. His opportunities for becoming rich were many as are now those of nearly all Senators, but to have taken advantage of them he would have had to lower himself in his own estimation and to have done things incompatible with his high sense of honor. He was true to himself and therefore false to no man, and though he died poor he carries to his grave an unsullied reputation for honesty and integrity—a blessed heritage to his children.

THE MAN who can make dead ashes burn as well as fresh coals may learn something to his advantage by communicating with those enterprising spirits who are talking about reorganizing the republican party in this district.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, June 13.

Within a few days the goverment will begin suit before the Federal Court at Cincinnati for the dissolution of the powder trust. The petition, which has been practically completed, presents an array of charges that will prove startling, even to those who have kept in close touch with the development of industrial combinations. It is understood that the Department of Justice considers its evidence against the powder combine to be the strongest and most convincing yet secured in its investigations into the operation of the bad "trusts." The petition will show that the trust has got this country by the throat; that it has for years been demanding its tribute, and that its grasp upon the government is now so strong that it would have to be reckoned with in the event of war with a foreign power. The goverument will ask for a dissolution of the trust, and demand "that the defendants, their agents and servants, and all persons acting or assuming to act under their authority, be forever enjoined from continuing, or in any manner acting under or in pursuance of the aforesaid combination or conspiracy in restraint of trade and commerce among the several states." There are in the neighborhood of twenty-five concerns in the trust complained of. Among others to be included in the petition, are the following leading ones: Dupont and Hazard; Laflin and Rand; American, Austin, Miami, King and Equitable. The trust appears to have operated along the lines which made the Standard Oil such a financial success, for, the petition charges, it bought up opposition when it could not, by overtures or coercion, secure a binding working agreement. Prices in a certain territory, were often reduced for the purpose, and with the result of pushing the independent concern into bankruptcy. Among other cases cited is that of the King Powder Company, of Cincinnati, O, which it is said, joined in a pool on blasting powder in 1896 and sold its product in accordance with the price and to the proportion fixed by the trust. Confusion arose from time to time, resulting eventually in the formation of the King Mercantile Company, which entered into an agreement to buy the King Blasting Powder for a term of twenty-five years. Closer relations followed later. It is charged that Dupont powder is being sold in the market in kegs branded "King Powder Company." This appears to be a favorite method of the trust's operation in those States where, like the Standard in the oil business, they operate plants under the guise of independents. The government has had a hard fight against the powder trust. One of the first things it discovered was that all the high positions were held by members of the Dupont family. They worked like a close corporation of a few members, and there was no such thing as a leak. But a puncture was effected, after a few months of diligent probing.

Arrangements have been completed for the departure of the funeral party with the body of the late Senator John T. Morgan of Alabama, for Selma, Ala., for burial. The trip will be made by special train, leaving Washington tonight at 10:50. Accompaning the body will be the two daughters of the Senator, Misses Mary Cornelia Morgan; J. O. Jones, his private secretary; and the House and Senate committees It has been decided to hold no services in Washington. The funeral sermon will be delivered in the Methodist church at Selma, where the Senator worshipped.

Secretary of the Navy Metcif, who arrived in Washington today, expressed his deep grief at the drowning of the six midshipmen and the five sailors which occurred in Hampton Roads Monday night, when the steam launch of the Minnesota went down. While there he gave directions that nothing should be left undone to find the missing launch and men. All of yesterday was spent in dragging over the supposed course of the launch, but up to the time he left there had been nothing discovered except the caps of two of the midshipmen and the ditty box of one of the crew. The cause of the accident still remains a mystery.

Secretary of the Navy Metcalf claims that he never was lost as reports had it. "I returned to the Dolphin at Hampton Roads on Tuesday night," said he, "and I have been on her ever since. I had no idea that there were reports circulating that I was lost or that our tug had gone ashore somewhere up in the James River. Nothing of that sort happened."

President Roosevelt has confirmed the sentence of death by hanging, which was passed upon Private William Taylor, of Company M, Twenty-fourth infantry, by a military court-martial convened at Iloilo, Philippine Islands, last October. Private Taylor, who was then quartermaster-sergeant, shot and killed his superior officer, First Lieutenant Robert B. Calvert, of the Twenty-fourth infantry, at Albuerta, Leyte. The murder was particularly brutal.

Virginia Troops.

During the review of troops at the Jamestown Exposition on Monday President Roosevelt said to Governor Swanson:

"The Virginia troops are a splendid body of men. I am delighted with the review, and I enjoyed seeing the Richmond Blues, a command which has a national reputation. The cadets from the Virginia Military Institute and Virginia Polytechnic Institute are well called military men of the South."

Again, when the cadets from Virginia Military Institute and Virginia Polytechnic Institute marched past a storm of cheers greeted the boys, and it was then that the President declared that the Virginia Military Institute was richly called the West Point of the South.

Col. Ayres Keeps Silence.

Lieut. Col. Charles G. Ayres has not yet replied to the communication sent him by Acting Secretary of War Oliver in which he was asked to state whether or not he was quoted correctly when he criticised Secretary Taft, his brother officers and the army court-martial system generally in connection with his wife having been ordered from the military reservation at West Point. A copy of the interview was inclosed in the communication.

Acting Secretary Oliver said yesterday that the War Department would not make public the letter Secretary Taft wrote Lieutenant Colonel Ayres directing that his wife be kept away from West Point. If the letter be made public it will be done by Lieut. Col. Ayres.

FRICTION WITH JAPAN.

The Japanese Ambassador and his subordinates at the embassy in Washington have apparently decided that the best way to prevent the development of further friction between the people of Japan and America is to observe strict reticence as to the San Francisco incident. The Ambassador is seldom visible to members of the press, and it is not possible to confirm the report that he has approved the plans for settling the matter of damages sustained by the San Francisco Japanese during the recent disturbance through a civil suit directed against the muncipality. It is known, however, that such a course has been suggested to him by persons whose positions made their opinions worthy of consideration, so it is believed that the Ambassador would gladly allow the San Francisco incident to pass out of the realm of diplomacy into the quite waters of civil courts.

A report has reached Tokio of an attack upon a Japanese horticulturist at Berkley, Cal., resulting in the destruction of a greenhouse and other property. This has fanned the flame of indignation already strong in Tokio and has served to confirm the popular belief that violence of the kind is not accidental, but the result of a deeply rooted feeling against the Japanese.

Referring to the alleged attack on a Japanese horticulturist at Berkley, Thomas G. Walker, representing the Japanese Association of America, states that it was a trivial affair. Some boys had thrown a few stones at a greenhouse belonging to a Japanese, but the damage was slight and the association would take no action in regard to the incident, leaving the local authorities to deal with the offenders.

Japanese residents of San Francisco intend, it is said, to demand an indemnity of the United States government for the alleged attack upon the Horseshoe restaurant and other acts of violence, which, they say, have been inflicted upon them.

Vice Trust.

Chicago, June 13.—Almost incredible revelations in moral depravity have been made during investigations by Judge Newcomer in the discovery that a "vice trust" has existed in Chicago for years. The investigation has disclosed that a majority of the disorderly houses are own and operated by a syndicate which has a virtual monopoly on traffic in women and all other revenue producing activities of the tenderloin. Many houses were fitted out by a syndicate of distillers and brewers. They were given "franchises" in immunity from police interference. No "outsider" has been tolerated without the consent of the "syndicate." The syndicate has recognized a number of leading politicians as partners and divided the profits of the traffic with them.

Today's Telegraphic News.

Conditions in Ireland.

Dublin, Ireland, June 13.—Since the nationalists' convention here unanimously rejected the partial home rule scheme of the English liberal government affairs in Ireland have been rapidly drifting into an acute phase, national Ireland having repudiated all form of compromise. The extremists have a greater following then they had since the days of the old land league.

A new organization called the Sinn Fein, composed almost exclusively of young men, is securing an immense following. Sinn Fein demands not only an independent Ireland, but a revival of the old Gaelic tongue and the Gaelic literature. In the western counties the dissent is extreme. In Kings and Galway counties there have been repeated raids on property which the police have been unable to prevent and the courts have been unable to punish. In these counties great tracts of land have been turned into grazing farms, and landlords have refused to sell and in some cases have even refused to rent to small tenants.

Farmers declare they are unable to support themselves and their children and must fight for the bare necessities of life.

The Archbishop of Cashel in a sermon this week at Moycarkey, Tipperary county declared: "It was never more difficult to live on the soil of Ireland than it is today. We are holding on by grit and industry, but we are rapidly finding even this impossible. Many of our best farmers have been obliged to leave their native land. This condition must prevail as long as the best land in Ireland is kept from the people. The only remedy is to divide the land into small holdings." Similar speeches, many of them more violent, have been delivered all over the country.

The greatest enmity is displayed toward the owners of big grazing farms. Hundreds of head of cattle have been driven off the land. In some cases cattle have been tied together by their tails and the animals struggled until one or the other of them had its tail pulled out by the roots. A few unsuccessful attempts have been made to fire hay ricks and houses. Unpopular landlords and officials serving writs have been waylaid on dark roads and severely beaten.

The Feeling in Japan.

Tokio, June 13.—Reports of the belligerent feeling of the Japanese people toward the United States which are circulating in America and throughout Europe are a surprise to the great mass of the people of this country. As a matter of fact little serious attention has been given by the people as a whole to the disturbances in San Francisco.

All the war talk here has emanated from progressive quarters, and this understood to be a mere political agitation. The progressives are trying to utilize the present crisis to force the ministry out of office so that they may secure control of the government. At heart the progressives desire war with the United States as little as do the more cunservative element, but the present agitation is helping their cause at home.

Meanwhile while all the war talk is filling the papers of other countries, the Japanese people are devoting themselves quietly to their regular business affairs.

The "filou" journals which have been consistently exaggerating all reports of ill-treatment of Japanese in the United States and doing their utmost to arouse public opinion against the American republic today print large photographs of the wrecked Japanese restaurants in San Francisco, coupled, with lurid descriptions of the sufferings of the Japanese in California. The result has been to considerably inflame the minds of readers of these papers.

The Nichi Nichi Shimbun, commenting on the photographs says: "The situation is undoubtedly grave. We call for prompt measures."

The Hochi Shimbun says: "The stage for negotiations has passed and the time for action arrived."

In connection with this utterance it should be stated that the Hochi Shimbun does not advocate war, but commercial relations.

Strike Inevitable.

Chicago, June 13.—A teamsters' strike at the stock yards is regard as almost inevitable by both packers and labor leaders. While actual hostilities will not be declared until all overtures are exhausted, the utter refusal of both sides to yield, make the cause hopeless. Actual preparations are being made anticipating a strike. The packers today notified city consumers that they will not guarantee deliveries of meat after Monday morning. Railroads having spurs in the yards are expecting trouble with their employes who are in union affiliated with the teamsters. Arrangement were made for transferring nonunion men from downtown depots to the yards. The railroads are displacing union men where they can do so without provoking a breach. The teamsters have been informed thet their first move toward a strike will be immediately followed by the arrival of 500 negro strike breakers. Swift & Co., and the Anglo-American Packing Company have refused to grant the increase.

The Hague Conference.

The Hague, June 13.—The United States wants one of the sub-secretaries at the second peace congress which begins here on Saturday. In the arrangements agreed upon for organizing the congress there is no provision for an assistant secretary from the United States. When the united representatives arrived today they at once went to work upon the other delegate to secure this concession.

Practically all the representatives of the various nations are now on the ground. The others will arrive today and tomorrow. It is expected every delegate will be in his seat when the congress is called to order Saturday.

A preliminary formal meeting will be held tomorrow to allow all the delegates to sign the protocol drawn up at the first congress in 1899. This will enable all the nations, several of which were not represented at the first congress, to enter the conference on the same footing. The South American nations will be the principal gainers.

Open War Expected.

San Salvador, June 13.—Open war between Salvador and Nicaragua is expected as the result of the defeat last night of the band rebels assisted by Nicaraguan soldiers sent by President Zeyla of Nicaragua to capture Acajutla. Preparations for the conflict are already under way here. Commanders of every garrison have notified to put their forces in condition for service immediately. Last night the rebels were defeated at Sonsonak and forced to retreat to Acajula.

A battle is reported to be in progaess there today, the victorious Salvadoreans having pressed the rebels and their allies hard on the retreat.

An American is said to have figured prominently in the fighting so far. John Moissant, formerly of San Francisco, is reported to have been one of the leaders of the rebels.

Rioting in Cleveland.

Cleveland, O., June 13.—Serious rioting today marked the progress of the fight being made by orthodox Jews against the Kosher Shops which have raised the price of beef four cents a pound. A crowd of 600 men and women attacked the shop of the reputed head of the "Kosher Trust," armed with clubs. The police on guard were unable to cope with the mob and the reserves were called out. Three women were arrested. Several riots of less magnitude have occurred, resulting in the assault of customers at Kosher shops, the destruction of meat and the beating of drivers. Women have taken a leading part in the riots. At a mass meeting last night it was decided to open co-operative shops for the sale of Kosher meat. Chief of Police Kohler has threatened to appeal to the Mayor for troops.

Piano Factory Destroyed.

New York, June 13.—One man dead from excitement, twenty firemen overcome by smoke and property valued at $200,000 destroyed were the results of a fire which today partially destroyed the five story brick piano factory at Southern Boulevard and 137th street, occupied by several firms. George Thompson, an employee in the factory, was awakened by the cry of fire. Seeing the factory on fire he exclaimed: "My job —" and dropped dead from heart disease. Paints and varnish fed the flames and fire fighters were carried out of the building, overcome by the fumes. At one time a score were lying on the sidewalk overcome by smoke. Chief Croker then ordered the men to work in relays and this saved many others from being overcome.

Verdicts Satisfactory.

Madrid, Spain, June 13.—General satisfaction has been given throughout Spain by the verdicts returned against those persons tried on charges of complicity in the attempt to assassinate King Alfonso and Queen Victoria on their wedding day. Nine years' imprisonment for those who were directly connected with the plot by the testimony is regarded as fitting punishment. At the same time the discharge of Professor Ferrer is regarded as just. There was no positive evidence showing that he knew of the attempted assassination when he offered assistance to Morral, the bomb thrower, in trying to escape.

Collision.

Pailadelphia, Pa, June 13.—The British steamship Taunton, from Calcutta, on her way up the river collided with the new Ward line steamship Saratoga in the horse shoe off Gloucester today. The Saratoga, which was going down on her trial trip, was compelled to return to Cramp's shipyard. The Taunton had a big hole stove in her starboard side amidship, and in order to save the cargo the captain beached the steamer.

Dying from Her Burns.

Detroit, Mich., June 13.— Mrs. Annie Roundtree, is dying at Harper's Hospital today and Robert Abernathy is suffering from probably fatal burns as a result of a fire in a four story rooming house here last night. Mrs. Roundtree jumped from a three story window. Four others were injured. Thirty-three occupants of the upper floors jumped into life nets. The fire was caused by a boarder upsetting a lamp.

The President at Oyster Bay.

Oyster Bay, N. Y., June 13.—The President has settled down at this place and Oyster Bay is resuming its summer activity. Poolrooms Closed.

New York, June 13.—Seventeen poolrooms were raided by Commissioner Bingham's men yesterday. Valuable documentary evidence was obtained in a number of places showing the real backers of the rooms. Every clerk and poolroom keeper examined in the District Attorney's office said that the situation is hopeless and the poolrooms are things of the past.

The Haywood Case.

Boise, Idaho, June 13.—When court opened today Attorney Richardson again plunged into an effort to show to the jury that Orchard had sufficient motive for a man of his character and temperament to have murdered Goverpor Steunenberg without suggestions or orders from any third person.

The New York Stock Market.

New York, June 13.—Trade at the opening of the market was active influenced by poor cables from Liverpool and favorable weather in the belt and prices were 3 to 6 lower following the call. Local bulls gave the list a little support, but there was no important outside buying. At the end of the first hour a number of usually active stocks had not even opened. The tone of the market was heavy and where there were any changes worth noting they were generally for moderate losses.

Coxswain's Body Found.

Tomb of Maximilian.

In a group of visitors to the royal tombs at Vienna recently was a tourist from Mexico, who showed great interest in the resting place of Maximilian. "There," he writes, "where a ray of sunlight can strike it, I saw for the first time the imperial crown of Mexico. It was on the unfortunate Maximilian's coffin. Under it was the inscription in Latin: 'Born at Schonbrunn July 6, 1832; made Emperor in 1864; died a hero June 19, 1867.' So it will be forty years soon since the tragedy which was not to be averted was enacted. I heard the people tell about the young prince's courage; how he had to console his father confessor and how he spoke words of cheer to Dr. Basch, to whom he said: 'Take this ring back to my people and tell them all that took place. You will bear my love to my parents and will say to my mother that I died a Christian, and a soldier.' I heard them and sympathized with them in their admiration for one who fell the victim of another's crime. Napoleon III, Bezaine, Juarez, the chief actors in the tragedy of Queretari, are dead, but I told my Austrian guide that the music which Maximilian brought to Mexico still lives there, and even some of the musicians who first made Mexican blood tingle with the strains of the Radetzky march."

Germany in Asia Minor.

Germany is rapidly gaining a dominating influence in Asia Minor through the great works undertaken there by the Kaiser's government, chief of which is the construction of the Bagdad Railway. This is the opinion of P. A. Jay, secretary of the American Embassy at Constantinople who has just returned from an extensive trip through that country.

Mr. Jay's journey was made for the express purpose of studying the commercial schemes inaugurated by Germany and to note the progress of the Bagdad Railway. He will submit a detailed report of his findings to the State Department.

Enormous difficulties beset Germany, he says, in building the railroad, and the task is certain to take a long time. But through their commercial ventures the Germans are bringing the country under their control.

A Bright Vision.

[Written for the Gazette.]

Soft floated the opening chords on the ear,
While an exquisite voice rose high and clear.
Ah, the power and sweetness that here combine
In the tender tones of this voice divine.
And I longed for a Master's brush to paint
The fair classic face like a pictured saint;
Those pleading blue eyes with their softened light,
And the golden hair was a halo bright;
But this vision, till time and thought are o'er
Is stamped deep in my heart forevermore.

Pure Milk.

By directing Dr. H. W. Wiley, chief chemist of the Agricultural Department, to exploit the dangers of drinking tainted milk, Secretary Wilson has inaugurated a campaign for pure milk that he hopes will be as beneficial as that for pure food and good meat. The programme is to bring the country, through agitation, to a realization of the unsatisfactory condition that surrounds the milk supply. Recently the department was requested to co-operate with the local government of the District of Columbia and the Marine Hospital and Public Health Service, in a scientific investigation to ascertain, if possible, the cause of an annual epidemic of typhoid fever in Washington, and the high infantile mortality rate. Through this and other investigations, the department is convinced that practically every city in the land is getting impure milk. While a few cities realize this, as a general rule they have taken no steps to remedy conditions.

The household department contains a number of helpful hints and the ten short stories and poems are above the average.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

ST. MARY'S ACADEMY.

Lannon's Opera House was taxed to its utmost yesterday when St. Mary's commencement took place, and the programme, in which over two hundred pupils participated, was an exceptionally good one. There were seven graduates, Misses Mary Sweeney, Lillian Crilly and Rosa Crilly, of this city; Emma Willis and Georgie Ifft, of Washington; Josephine Daly, of Phœbus, Va., and Teresa O'Sullivan, of Harrisonburg, Va.

The programme opened with the "Bridal Chorus" by the vocal class and their singing in this and in the closing number, "Invitation to the Dance," showed careful voice culture and much ability as vocalists. Miss Ifft's essay was an able dissertation clearly rendered in behalf of determined purpose joined to painstaking labor as a means to success. "Not to genius," she said, "but to work, is humanity indebted for the deeds that had made history."

"Marche des Phantoms," by Verna Bittle, Ruth Gerlacher, Helen Corbett and Emma Fant followed, and the execution of the young pianists was perfect. "The Need of the Hour" was Miss O'Sullivan's subject and her plea for noble womanhood was a strong argument in favor the lessons inculcated at her alma mater whose aim is to send forth young women so developed in heart and mind that the little world in which they live may be bettered by their presence.

"The Jolly Blacksmiths" with the Misses Ifft, Allen, Gilroy and Lillian Crilly at the pianos was a splendid number into which the performers put the soul of music expression.

Miss Willis recited her essay, "Our Nation's Glory," a poetical tribute to Washington, which showed marked ability along the line of composition and elocution that merited the prolonged applause that followed.

"Under the Shadow of the Cross," a tableau in which one hundred pupils took part, gave full scope to the power of expression, and the various attitudes of sorrow taken by the young ladies as they gazed upon a suspended cross made the scene a beautiful picture.

"Ring Fantastics" by eighteen seniors attired in Grecian robes was among the best numbers, for the grace and precision with which they went through the various and intricate movements of the drill was faultless.

Rose Crilly's essay, "Life's Verse and Prose," was well written and charmingly read; she compared youth to a poem full of music of contentment and peace, and the after life to the less pleasing but more serious prose. A splendid musical number, "Valse op. 34 No. 1 from Moszkouski testified to the marked ability of Misses Sallie Patterson, Josephine Daly, Margaret Daly and Bertha Nugent and it was accorded the hearty applause it deserved. Miss Lillian Crilly chose for her subject, "One of the Immortals," and in it she testified her love for and knowledge of the master dramatist, Shakespeare, whose claims to immortality she ably set forth. Her essay was worthy of the theme and it elicited hearty appause.

"Polonaise" from Chopin was then rendered by Misses Hill, Cowhig, Willis and Walker in a manner that showed artistic interpretation joined to marked executive ability as pianists, and it was warmly applauded.

Miss Daly, whose home is very near Jamestown, made the terceotennial exposition her subject and in "Three Centuries of Honor" whose measured lines proved the young graduate a poet as well as a patriot, she made a grateful acknowledgment of the debt due by the nation to Virginia, the "cradle of our people." The applause that followed the recitation of the poem proved that the subject had struck a vital chord in the heart of all Virginian present.

In the next number, "Alma Mater," all the school with the exception of the minims appeared. It was a beautiful tableau in which the school colors, blue and white, the '07 colors, gold and white, and the class motto "Fidelis" were seen to advantage.

"Rhapsodie Hongroise" from Liszt, in which St. Mary's talented musicians, Misses Hill, Cowhig and Willis, were again heard with Miss Lola Ashton, was the last piano selection and it was rendered in a manner that showed excellent training and a fine conception of the masterpiece. A "flag drill" by fifty minims with song accompaniment was among the prettiest numbers, for the dainty little misses went throught a series of evolutions with a grace and precision that would do honor to the seniors.

Miss Sweeney was the valedictorian and her poetical tribute to St. Mary's was the grateful offering of a heart warmly attached to her alma mater where all her school days were spent. Her clear, well modulated voice and faultless expression added greatly to the delivery of her essay which was received with marked applause.

Alma Desio, Mary Faber, Nancy Groh and Gertrude Bernard as violin accompanists were heard in the vocal selections and their playing was excellent. Rev. Father Cutler conferred upon the graduates their medals and diplomas and awarded the prizes and certificates after which in a few brief remarks he congratulated the graduates and their teachers upon the successful closing of another year, and expressed in his own name and that of the audience the pleasure accorded by the ably rendered programme. The following honors were awarded: Gold medal for Christian doctrine, presented by Rev. Father Payne, was awarded to Miss Lillian Crilly.

A gold medal for improvement in music was awarded to Miss Josephine Daly. A gold medal and diploma for having completed the national graded course in music was awarded to Sallie Patterson and Freda Cowhig. A gold medal for senior roll of honor was drawn by Christine Waggaman. A gold medal for intermediate roll of honor was drawn by Ruth Payne. A gold medal for attendance in the senior department was drawn by Sarah Grob. A gold medal for attendance in the intermediate and minim departments was drawn by Winifred Bayne. Prize for scholarship in the graduating and first senior classes was equally awarded to Nancy Grob, Georgie Ifft, Theresa O'Sullivan, Ella Hill and Emma Willis. Drawn by Emma Willis. Prize for scholarship in the business department was awarded Jennie Graumann. Prize for scholarship in the second and third senior classes was equally awarded to Ida Crilly, Helen Corbett, Lena Lynch, and Elizabeth Jackson. Drawn by Lena Lynch.

Prize for scholarship in the first and second intermediate classes was equally awarded to L. Moore, M. Drew, A. Graumann, S. Grob, D. Sullivan, G. Crilly, M. Hellmuth, L. Hill, M. Ball, L Nugent, I. Montier, M. Ewald, C. Barnhouse, A. Desio, K. O'Callahan, C. Waggaman, E. Ballanger, E. Fant, E. Brill, E. Crilly, A. Wilhelm, N. Murphy, H. Nugent, R. Griffin, F. Crook. Drawn by Helen Nugent. Prize in senior composition class was awarded to Emma Willis. Certificates in the Palmer method of business writing were awarded to Freda Cowhig, Catherine Berrill, Mary Bartemen, Bessie Talbot and Lillian Popkins. Certificates in stenography were awarded to Cora Pettit and Grace Fletcher. Certificates in the national graded course in music were awarded to Josephine Daly, grade 2; Emma Willis, grade 3; Lola Ashton, grades 3, 4, 5; Catherine Waller, grades 2 and 3; Teresa O'Sullivan, grade 2; Nancy Groh, Elizabeth Jackson, Lillian Hill, Laura Smith, Pearl Corl, Maud Allensworth, Mildred Hellmuth, Sadie Gains, Eva Crilly, Margaret Beek, Virginia Downey, Edna Brill, Editha Roland and Cora Barnhouse, grade 1.

When Prescriptions are Wanted

Dienelt's Pharmacy enjoys the favor of all intelligent people. The reason is not hard to understand. Reliability describes it exactly. Physicians have made it perfectly understood that their prescriptions must be filled exactly as written and under no circumstances can substitutes be tolerated, therefore the bulk of prescriptions come to us because we and our drugs and medicines are known to be absolutely reliable.

Orchard's Confession.

In the trial of Haywood at Boise City, Idaho, yesterday, Orchard told of his plot to kidnap the son of Banker August Paulson, one of his former partners in a mine, and how he visited Paulson and dined with the family to get information as to their movements.

Orchard also told of entering Governor Steunenberg's room in a hotel and planning to place an infernal machine attached to an alarm clock in a valise under the governor's bed. Orchard said he did not care if he blew up the whole hotel.

Orchard gave more details of his attempt on the life of Adjutant General Bell, stating that the barking of the general's dogs kept him from approaching the general. Incidentally, Orchard added burglary to his crimes.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disapp ar like magic by its use. Large nickel-capped glass jars 50 cents. Sold by E. S. Leadbeater & Sons.

A Dangerous Deadlock.

that sometimes terminates fatally, is the stoppage of liver and bowel functions. To quickly end this condition without disagreeable sensations, Dr. King's New Life Pills should always be your remedy. The Shah's Jewels.

An inventory of the jewel treasure left by the Shah of Persia shows that the precious stones collected by him are valued at about $50,000,000. The collection contains a number of unrivalled diamonds and other stones. The old crown of the Persian dynasty holds a ruby as big as a hen's egg. A belt studded with diamonds, worn only on great state occasions, weighs eighteen pounds and is valued at millions of dollars. A wonderful silver vase is decorated with a hundred emeralds, one of which is so large that it was possible to engrave on it the Shah's numberless titles. A sword with a dismond covered scabbard is valued at $1,250,000. A remarkable feature of the collection is a square block of amber of 400 cubic inches, which Persians say dropped from the skies in the timeof Mahomet.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, cold, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumanic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but $1.25. For sale by W. F. Creighton & Co. and Gibson & Timberman.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act June 30th, 1906. Serial number 1098.

DON'T LET JUNE GO BY without looking after your next winter's coal supply. See our advertisement. W. A. SMOOT & CO.

TO THE OWNERS OF DOGS.

MAYOR'S OFFICE,
Alexandria, Va., June 12, 1907.

All persons owning or intending to keep any animal of the Dog or Canine species should come forward on or before

JUNE TWENTY-FIFTH, 1907,

and take out a license for the same from the Auditor. After the 30th of June all persons owning or harboring Dogs without the required license are subject to a fine as the laws on the subject require of $3.00 or $5.00.

Complaint has been frequently made that many persons fail to take out their license, and that others pay on one or two dogs when owning and harboring more, or who send such dogs away during the summer months and bring them back in the fall.

Attention has been called to this evasion of the law, and policemen will report all such cases and fines can be imposed upon those who fail to take out licenses after trial in the Police Court.

The police officers will be required to report all violations of this law.

In order to avoid any mistakes persons who make application for licenses would do well to write their names and number of residence, street, etc., on a card or paper when making application for licenses to the Auditor.

FRED. J. PAFF, Mayor.

The following is a copy of Section 54 of the License law: "On every dog, regardless of sex, one dollar and fifty cents."
